

Harshal Wagh

Software Engineer | Full Stack Developer

✉ hwagh1700@gmail.com 📞 +91 9325038309 📍 Pune 🔗 LinkedIn 🐙 GitHub 📁 Portfolio

PROFESSIONAL SUMMARY

Software Engineer experience in designing and scaling high-performance web applications, APIs, and automation workflows. Proficient in JavaScript, TypeScript, Node.js, Express.js, MongoDB, and modern frontend technologies. Skilled in building end-to-end solutions, optimizing system performance, and integrating RESTful services. Strong problem-solver with hands-on experience in cloud deployments, Agile environments, and Git-based workflows. Leverages Generative AI tools to accelerate development and deliver efficient, production-ready solutions.

TECHNICAL SKILLS

Programming & OOP: JavaScript (ES6+), TypeScript, Python (Basic), Object-Oriented Programming (OOP), Data Structures

Frontend Technologies: React.js, HTML5, CSS3

Backend Development: Node.js, Express.js, RESTful APIs, WebSockets, Middleware Development, Authentication (JWT), Input Validation, Error Handling

Databases: MongoDB (Aggregation Pipelines, Indexing, Query Optimization), PostgreSQL (Joins, Indexing, Query Optimization, Transactions), MySQL, Redis (Caching, Key Expiration)

System Design & Architecture: API Design, Asynchronous Processing, Event Loop, Caching Strategies, Logging and Monitoring

DevOps & Version Control: Git, GitHub, GitHub Actions (CI/CD), Branching Strategy

Tools & Platform: Postman, Thunder Client, JSON Editor, VS Code, Jira, Agile, Scrum, Generative AI Tools, GitHub Copilot

EXPERIENCE

Ace Turtle Pvt Ltd, Associate Software Engineer 08/2024 – Present | Bengaluru, India

- Designed and maintained backend services for enterprise administrative systems handling order and return workflows
- Developed scalable REST APIs using Node.js, Express.js, and SQL/NoSQL databases
- Reduced API latency by 20% through query optimization, indexing, and efficient data handling
- Worked with relational databases (PostgreSQL/MySQL) for structured data, joins, and performance tuning
- Followed complete SDLC including requirement gathering, development, testing, and deployment
- Created and executed API test cases using Postman to ensure reliability and correctness
- Built asynchronous workflows and scheduled jobs, reducing manual operations by 40%
- Implemented structured error handling, logging, and retry mechanisms to improve system reliability
- Collaborated in Agile teams using Git-based workflows and CI/CD pipelines for smooth releases

Codaaz Software, Software Developer 01/2024 – 06/2024 | Nagpur, India

- Developed full-stack applications using Node.js, Express.js, MongoDB, and React.js
- Designed and consumed RESTful APIs with proper validation and error handling
- Collaborated with cross-functional teams to enhance UI/UX and application performance
- Performed API testing and debugging using Postman
- Used Git and GitHub for version control and team collaboration

PROJECTS

Rubicon – Internal Order & Returns Management Platform

Built scalable backend workflows and REST APIs for enterprise operations. Implemented asynchronous job processing and cron-based automation. Optimized MongoDB aggregations, improving performance by 25%. Added validation, error handling, and retry logic for system reliability

Merchant Refund Portal – Full Stack Application

GitHub: <https://github.com/8309h/merchant-refund-portal>

Built refund system with transaction view & eligibility checks; implemented JWT auth & protected routes; Created APIs with pagination, filtering, search; created analytics & CSV export

Tech Stack: Node.js, Express, MongoDB, React, TypeScript

EasyShop – E-Commerce Web Application

GitHub: <https://github.com/8309h/EasyShop>

Designed e-commerce app with product listing, search, cart, wishlist, order flow; implemented authentication, payment simulation, invoice generation; optimized APIs for performance

Tech Stack: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, Git, Netlify, Render

EDUCATION

Master of Computer Applications(MCA), <i>Sinhgad Institute of Management</i>	08/2023 – 05/2025 Pune, India
Full Stack Web Development, <i>Masai School</i>	09/2022 – 10/2023 Bengaluru, India
Bachelor of Science in Computer Science, <i>North Maharashtra University</i>	07/2019 – 06/2022 Jalgaon, India

CERTIFICATIONS

• Prompt Engineering - Masai School ↗	• Full Stack Web Development – Masai School ↗	• Advanced SQL Certificate – HackerRank ↗
--	--	--

STRENGTHS

Problem-solving | Debugging | Ownership mindset | Team collaboration | Effective communication | Fast learner
